

Guillow Gliders

Due to Federal Regulations we are required to put Lot #s on all products and packaging. Lot # will be printed on the border in the center at the bottom.

Template for 10-1 Border will print on the wing

IMPORTANT

Border line indicates the print area limits. All Lifter wings must have this border line around the perimeter.

If logo is required, submit camera ready artwork (300+dpi) or vector | line art. Small reversed, screened, fine line copy with tight registration can not be printed satisfactorily on balsa wood and is not recommended.

Email to: promotional@guillow.com.
